Health Training

What is it?

A wellness portal that encourages and motivates employees to adopt healthier behaviors while making it easy for administrators to manage workforce health.

Why MediKeeper?

- ▶ View real-time reporting through the administrator dashboard
- ▶ Send targeted, de-identified messages to specific segments of your population
- ▶ Customize with your organization's branding and select the functions you need

Wellness Challenges

Custom challenges and incentives enabling members to earn points, making it fun and easy to adopt healthier habits.

Health Risk Assessment

Users can take a Health Risk Assessment, get advice from respected medical professionals and even connect their wearable device to track fitness progress.

Convenient

Easy-to-use desktop and mobile app with push notifications to drive engagement
